

Provision Map Writer

The original online Provision Management service

Audit. Map. Track.

Manage all aspects of additional
provision and Pupil Premium funding.

SIMS

Commercial Partner 2021/22

Provision Map Writer. All you need to manage additional provision.

Provision Map Writer is more than just a powerful reporting tool. It also supports the strategic management of inclusion right across the school. Track money spent and staff hours. Log interventions and pupil involvement. Pinpoint which interventions are working, and which are performing sub-optimally.

Audit

- **Inclusion Register:** identify areas of need across the school
- **Pupil Profile:** record strengths, barriers to learning, effective strategies
- **Prioritisation tool:** sort pupils into must, should, could priority levels for provision
- **Budget tool:** calculate money and time spent on interventions
- **Intervention database:** includes recommended interventions and facility to add your own

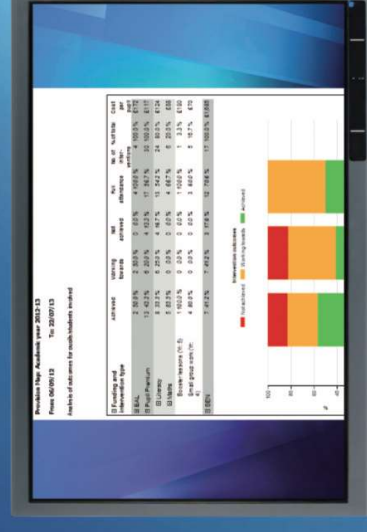

Map

- **Map planning tool:** assign interventions, pupils and staff to your map
- **Map Menu:** choose from a range of formats and layouts to suit your school
- **Group and Individual Maps:** show provision for groups and individual pupils

Track

- **Outcome reports:** record, track and analyse the effectiveness of your interventions
- **Progress reports:** review individual pupil progress and intervention performance
- **Funding reports:** monitor and evaluate effectiveness of funding expenditure

e.g. Pupil Premium

The screenshot shows a detailed data table within the Provision Map Writer software. The table has multiple columns, including 'Pupil Name', 'Pupil ID', 'Intervention', 'Start Date', 'End Date', and 'Status'. The data is organized in a grid format, with rows representing individual pupils and their assigned interventions. The interface includes various filters and search options at the top.

Pupil Premium and Provision Map Writer

In light of Ofsted's current focus on Pupil Premium, Provision Map Writer (PMW) gives a clear insight into Pupil Premium spending and effectiveness.

SIMS stores a Pupil Premium Indicator (PPI) which records pupils who attract PP funding. This data is imported into PMW so that schools can monitor and evaluate the effectiveness of additional provision for those pupils specifically.

For non-SIMS schools PPI is automatically calculated by PMW.

Monitoring your Pupil Premium

- compare effectiveness of interventions in terms of outcomes and cost for PP-entitled pupils with other pupil groups
- compare effectiveness of PP-funded interventions with those funded differently
- produce a provision map of PP-funded interventions
- produce reports on PP for school's website as required by DfE
- monitor PP funding spend, balance and cost-per-pupil.

Rapid response to statutory changes and customer feedback

SIMS

Technical Partner 2021/22

Blue Hills

We have been successfully providing specialised management software and support to thousands of schools since 1998. Our aim is to combine innovative ideas and excellence in practice into practical web-based management applications.

Blue Hills and ESS SIMS

We are a ESS SIMS Commercial and Technical Partner. Our link with SIMS provides scheduled automatic pupil and staff data updates from SIMS to Provision Map Writer.

Designed and produced by The Lines Group Ltd
